

INTRODUCING IB WORLD STUDENT CONFERENCES

SEGOVIA, SPAIN 2-6 JULY 2012

VANCOUVER, BRITISH COLOMBIA, CANADA 23-27 JULY 2012

Inspiring responsible action for creating a better, more peaceful world

IB World Student Conferences welcome IB Diploma Programme students from around the world to explore and experience what it means to be globally engaged and to inspire responsible action for creating a better, more peaceful world. The conferences provide a unique opportunity to develop student leadership and international understanding.

THE EXPERIENCE

World-renowned speakers will challenge students to confront significant global issues, and student groups will work together on creative ways to address these issues. Using the skill of open-minded inquiry, these

groups will develop collaborative projects and use the Global Engage website to extend the life of the conferences through international Creativity, action, service (CAS) projects.

THE RESULTS

IB World Student Conferences will enable students to:

- enjoy a mix of cultures, languages and personalities in beautiful and charming settings in either Western Europe or North America
- build friendships with fellow IB students
- enhance leadership skills
- engage intellectually with university faculty and guest speakers from a wide array of disciplines
- create action plans for CAS projects.

ABOUT THE IB DIPLOMA PROGRAMME

The IB Diploma Programme is designed as an academically challenging and balanced programme of education with final examinations that prepares students, normally aged 16 to 19, for success at university and life beyond. Today, students in more than 2,000 IB World Schools in 137 countries experience an IB Diploma Programme education every day. Normally taught over two years, the programme has gained recognition and respect from more than 2,000 of the world's leading colleges and universities in more than 100 countries.

For over 40 years, the Diploma Programme has:

- provided a package of education that balances subject breadth and depth and considers the nature of knowledge across disciplines through the unique theory of knowledge course
- encouraged international-mindedness in IB students, starting with a foundation in their own language and culture
- developed in students a positive attitude to learning that prepares them for university education
- gained a reputation for its rigorous external assessment with published global standards, making it a qualification welcomed by universities worldwide
- emphasized the development of the whole student—physically, intellectually, emotionally and ethically.
